

KONICA MINOLTA

Konica Minolta Albin

through dedication

to service excellence,

has earned the

Pro-Tech Service

Award for 2006.

KONICA MINOLTA
ABIN

SOLUTIONS FOR GROWING BUSINESSES

Service, Support, Satisfaction. Second To None.

This is the Konica Minolta Pro-Tech Promise.

The Pro-Tech Service Award recognizes those Konica Minolta dealerships able to demonstrate an exceptional commitment to customer support and satisfaction. It is a symbol of quality. An assurance of professional, reliable service and maximum performance for your Konica Minolta office products.

The Pro-Tech standard is difficult to achieve, and the evaluation procedure is exhaustive. Every element of the service operation—management skills, inventory control, technical expertise, dispatch systems, customer satisfaction, and more—is scrutinized and measured.

This rigid standard is the very reason this award has become such a powerful symbol of competence and proficiency. To be chosen to become a member of this select group is indeed an honor.

You can count on your Pro-Tech dealership to give you their best effort, every day of the year. And to offer every customer the benefits of...

Professional, customer-oriented service department management and administration

Service response times significantly better than the industry average

Preventive maintenance programs that are on time, every time

Inventory control systems that assure immediate access to replacement parts and components

Comprehensive training programs and performance reviews to maintain the highest levels of expertise

Highly skilled technical specialists and service personnel trained on your products

We, the dealer, are committed to your satisfaction, and Konica Minolta is committed to assuring high performance standards throughout its organization. Through a nationwide network of dealers, Konica Minolta offers a state-of-the-art product lineup that is unbeatable. Of all the major manufacturers, Konica Minolta was the first to offer a program of this kind, and continues to be a leader by setting the highest standards in the industry today.

Finally, the Pro-Tech Award gives you, the customer, a distinct advantage. You're assured, before the sale, that your Konica Minolta dealer has the skills, the people and the systems to keep your equipment operating at the highest levels of productivity. We think that's an advantage worth considering.
